

**Success is
determined by how
well strategy is
executed.**

Success demands effective and timely implementation of a well formulated portfolio of strategic initiatives and aligned operational activities.

It is paramount that the right actions (strategic initiatives and operational activities) are taken and on time!

Strategy execution is the discipline of follow through on plans and decisions with a sense of urgency. **It is an on-going process where efforts are geared to strive continuously to close the performance gap between current state and the desired strategic destination.**
