

MAKING STRATEGY HAPPEN

The enablers
of **STRATEGY**
EXECUTION

Strategy Execution is a team sport!

- 1) People execute the strategy.
- 2) A strategy may be good, but it can never deliver significant results without engaged people.
- 3) Connecting people to strategy is paramount for successful execution.
- 4) When people are aligned with the organisation's strategic goals and purpose, their collective energy is directed and amplified towards achieving the vision.

The ability to execute is more important than ever in VUCA times. It is the key for lasting success.

Strategy execution is not easy. It is complex and involves many people sometimes with conflicting agendas and opinions.

Often the journey is filled with unforeseen barriers and risks.

However it is a necessary investment if the desired future is to be reached.
